## COMPETENCIES

- Experience in one or more of our skilled trades; patternmaking, tool & die, machinist, metrology, CAD design, welding, maintenance.
- Shop machine, tool & mathematics knowledge.
- Programming knowledge is a plus.
- CAD & CAM software.
- Shop Production and Processing.
- Ability to lift 60 lbs.
- Education Required: High School diploma and Technical class work in above areas
- Experience Required: One year

HOURS OF WORK: Full Time - 40+ hours per week - 7:00 a.m. to 4:30 p.m.

## PRIMARY RESPONSIBILITIES

### MACHINIST

- Read & interpret shop drawings, CAD files, and program CAM toolpaths.
- Machine patterns, tools, fixtures, parts to specifications, using CNC & manual machine tools.
- Set up, adjust, or operate basic or specialized machine tools used to perform precision machining operations.
- Measure, examine, or test completed units to check for defects and ensure conformance to specifications, using precision instruments, such as micrometers.
- Calculate dimensions or tolerances, using instruments such as micrometers or calipers.
- Measure dimensions of completed products or workpieces to verify conformance to specifications.
- Calculate dimensions of workpieces, products, or equipment.
- Operate cutting, grinding & metal or plastic forming equipment.
- Assure all operations are done safely.

## PROGRAMMER

- Create toolpaths and cut sheet instructions for patterns, tools, fixtures, parts to specifications to be machined on CNC lathes, milling machines or routers.
- Communicate effectively to assure efficient, complete, and accurate products.
- Apply continuous improvement principles by gaining & applying knowledge on cutting tools, strategy, and automation.

WAGE: \$21.00 - \$30.00 / hour based on experience

### BENEFITS (After Intro Period):

- Medical & Dental Insurance
- Paid holidays & paid vacations
- 401k plan with API matching percentage
- 1st Shift
- Flexible schedule
